

TECHNOLOGY SOLUTIONS

Eugene Ng

Eugene Ng, CISSP, is MNP's Cyber Security Leader for Eastern Canada. A member of the firm's Enterprise Risk Services team, Eugene identifies security technology, products and services that give clients a competitive advantage.

Eugene oversees research and development activities and formulates long-term vision and strategies at the executive management level to help the firm better serve clients. He provides a full range of cyber security services and solutions to medium-sized and large enterprises, delivering strong advice to help clients make business decisions relating to technology.

Prior to joining MNP, Eugene co-founded a successful cyber security company that won many industry awards. There, he held the position of Chief Innovation Officer and was involved in the design and high-level strategic security vision with some of Canada's largest corporations. Eugene has attended numerous events to understand the marketplace and upcoming technologies and has been a guest speaker, most notably a panel speaker at the Canadian Association for Security and Intelligence Studies to discuss cybercrime with some of Canada's most respected government agencies.

Eugene is a graduate of the DeGroot School of Business at McMaster University. He holds the Certified Information Systems Security Professional (CISSP) designation and is a PCI Qualified Security Assessor.
