

Gillian Woodward P.Eng.

Ms. Woodward has 20 years' experience in the sewer and water industry. After beginning her career in New Zealand, Gillian spent 12 years in the USA for an international firm specializing in sewer collection system data acquisition and analysis. In 2014 Gillian made her way to Canada and spent two years in engineering consulting before joining the Resort Municipality of Whistler. She now manages the water treatment and distribution and sewer collection and treatment systems for the geographically challenging and dynamic population of the Resort.
